

NOVEMBER 15, 2018 - 10AM TO 2PM

GETTING STARTED WITH UAS IN WESTERN KANSAS

**The Robbins Center, One Tiger Place
Fort Hays State University**
\$20 per seat, lunch is provided
Limited seating available

Unmanned Aerial Systems (UAS) and drones are more than a fad. This technology impacts most of our population every day and yet we're still only scratching the surface of its economic potential. This workshop will bring together industry experts to share UAS opportunities, applications and regulations.

Who should attend?

People who work in agriculture, oil and gas, ranching, real estate, construction, insurance, first response, logistics, software, data analytics, educators, entrepreneurs and more.

**Register early with the Hays Area Chamber of Commerce at
discoverhays.com/Events/CalendarofEvents or call 785-628-8201.**
