

Flint Hills Solutions is a Unmanned Aerial Systems and Subsystem Sensor Research & Development (R&D) Company focused on next generation technologies related to reducing Size, Weight, and Power (SWaP) while increasing performance.

- Flint Hills Solutions and its sister company, Powers & Zahr, are forming a UAS and Sensors Consortium in order to quickly provide the Research & Development (R&D) and rapid prototyping of advanced commercial UAS and sensor technologies to our Customers
- Funding is expected to be >\$100M per year over the next 10 years
- A new start up company has been formed as Powers & Zahr Consortium Management Company (PZCMC) to manage the Consortium of qualified Members in order to execute on the expected annual R&D funding
